LOGISTICS

# YOUR LOGISTICS AND SUPPLY CHAIN SUPERPOWER

SINCE  
**1975**

DELIVERING THE IMPOSSIBLE DAILY

# MOVING MOUNTAINS FOR OVER FOUR DECADES

We empower businesses to thrive on a global scale, pioneering innovative, technology driven logistics solutions for extraordinary demands.

A trusted partner in global supply chain management, we pride ourselves on exceptional service and agility, defining and executing end-to-end strategy with precision.

You don't approach a 50-year track record without trust, honesty and collaboration – our partnership will see you skilfully catapult into new markets, trade globally and operate boldly.

## EXPERTISE MEETS INGENUITY

We transport complex, time-sensitive cargo across air, land and sea, often in remote and challenging locations. We apply our expertise to de-risking and optimising every movement in the supply chain to guarantee seamless operations across borders.

Solution-driven, our cutting-edge technology, local knowhow and global networks underpin our ability to support your commercial success and reputation.

From fast moving consumer goods to project cargo, multimodal transport and aircraft/vessel chartering – we'll offer you agility and supply chain security as you navigate the intricate world of international freight.

# **DELIVERING FOR DIVERSE INDUSTRIES**

We select the most suitable modes of transport to meet your deadlines and budget, providing you with customised support that leaves nothing to chance.

## **WE ARE THE LOGISTICS PARTNER OF CHOICE FOR:**

- AUTOMOTIVE
- HEAVY EQUIPMENT
- PROJECT CARGO
- MINING AND INFRASTRUCTURE
- OIL, GAS AND ENERGY
- CONSUMER AND RETAIL GOODS
- PERISHABLES
- PHARMACEUTICALS
- FMCG
- INDUSTRIAL AND MANUFACTURING

# THE AIRLAND ADVANTAGE

01

## DELIVERING CERTAINTY SINCE 75

In four decades, we've weathered some storms – from the pandemic to warzones and inflation – our balanced geographical distribution, local knowhow and vast network delivers resilience.

02

## PROBLEM SEEKERS, PROBLEM SOLVERS

Where others see obstacles, we see opportunities. No request is insurmountable; from moving oversized cargo to outsmarting supply disruptions, we rally our resources to get the job done.

03

## RELIABLE VISIBILITY, IN REAL TIME

We create smarter supply chains with technology backed traceability and analytics. Our AI-led platform, Logiman aggregates shipping and airline data through satellite and GPS technology.

04

## LOGISTICS UNPACKED

We start with your goals and reverse engineer the ideal solution. We offer personalised account management and thorough scenario analysis to meet the needs of your business. Experience, agility and flexibility win the race.

05

## GLOBAL REACH, LOCAL TOUCH

We've cultivated our position and relationships in major trade hubs, ensuring our service is compliant, relevant and delivered through local agents. We're already keeping things moving where you operate.

06

## FAST FORWARD TO THE FUTURE

We help you meet stakeholder expectations with sustainability tools that demonstrate transparency and disclosure compliance like CO<sub>2</sub> tracking. We're at the forefront of the transition to a more responsible industry.

Beyond complex logistics, we consider all facets of your supply chain and understand the implications on your business.

We can identify and predict the variables that impact continuous operations, such as comprehensive stock planning and order management.

We'll ensure you always have the right inventory, in the right place, at the right time, maximising cost efficiency and minimising delays.

### OUR 360-DEGREE APPROACH

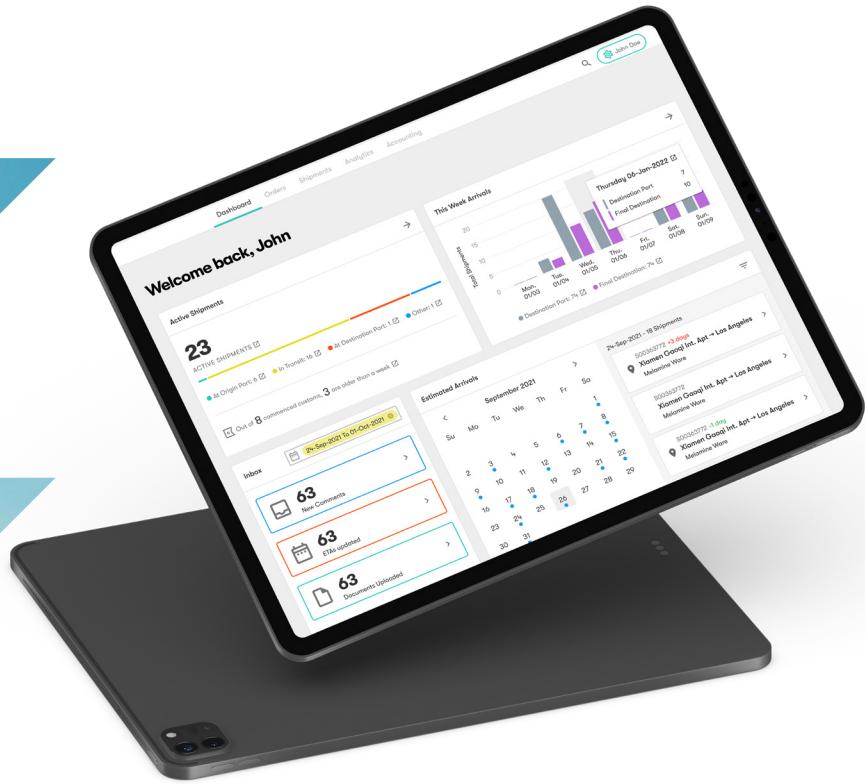

Our team guides you through every step of the journey, coordinating multi-modal transport strategies that deliver strong commercial and performance outcomes.

The background of the image is a composite of several industrial shipping port photographs. It features large cargo ships docked at piers, stacks of shipping containers in various colors like white, blue, and red, and industrial structures such as cranes and metal buildings under a clear blue sky. Overlaid on this scene is a large, stylized graphic element consisting of numerous overlapping triangles forming a cube-like pattern. The triangles are primarily in shades of blue, white, and orange, creating a sense of depth and digital connectivity.

# A DIGITISED SUPPLY CHAIN ECOSYSTEM

With Logiman, our cloud-based IT platform, end-to-end cargo visibility is made possible throughout the entire shipping process. More than a tracking tool, Logiman is a comprehensive logistics solution, automating business processes and workflows to help you plan, manage and optimise your supply chain.

## UNLOCK NEW EFFICIENCIES WITH THE LOGIMAN PLATFORM

### REAL TIME VISIBILITY

Access everything you need to know about your shipment in one place, with satellite, GPS and AI technology for real-time tracking.

### CENTRALISED DOCUMENTATION

Upload, download and get quick access to all shipping documentation in one place.

### EFFICIENT COMMUNICATION

Get real-time notifications and stay informed of any disruption or change.

### ADVANCED ANALYTICS

Comprehensive, easy to use reports inform decision-making with holistic data.

### IMPROVED ENVIRONMENTAL PERFORMANCE

Review emissions data to understand your carbon footprint based on distance, cargo weight and transport mode.

# OUR PRESENCE IS GLOBAL

## OFFICES, HUBS AND PARTNERSHIPS

Airland is strategically positioned in every major continent of the world. Our in-depth knowledge of varying market requirements across geographies, ensures a smooth and efficient process across all trade routes. We stay informed of local market conditions, so that we can guide you through practicable risk analysis.
